CHANGING PLACES
RIGHT AT HOME AGING IN PLACE SOLUTIONS

FUTURE READY STRUCTURAL MODIFICATIONS

These structural or permanent improvements address significant mobility or access challenges and often require licensed professionals.

Larger home changes to support aging long-term.

BATHROOM & PERSONAL CARE

- Convert tubs to zero-threshold, walk-in, or roll-in showers
- Install reinforced blocking for grab-bar support & safety
- Remodel vanities with wheelchair-accessible, roll-under sinks

DOORS, FLOORS & STAIRS

- Install slip-resistant, mobility-friendly flooring
- Remove raised thresholds and widen doorways
- Construct ramps for improved accessibility
- Install stair lifts or residential elevators for multi-level access

LIGHTING & TECH

- Improve task lighting and controls
- Lower light switches and raise outlets
- Add smart home accessibility controls

KITCHEN

- Install roll-under cooktops
- Add pull-down shelving systems
- Kitchen remodeling

ROOMS & FURNITURE

- Modify room layouts to support turning radius
- Create a primary bedroom and bathroom on the main level
- Add accessible laundry

Why?

Why Structural Modifications Matter

- *Improve safety and long-term accessibility*
- *Extend the ability to stay at home longer*
