CHANGING PLACES
RIGHT AT HOME AGING IN PLACE SOLUTIONS

SMART LIVING FUNCTIONAL ENHANCEMENTS

FUNCTIONAL ENHANCEMENTS ARE DESIGNED TO IMPROVE HOW THE HOME WORKS FOR THE INDIVIDUAL AS PHYSICAL NEEDS CHANGE.

Upgrades that support mobility and changing needs.

BATHROOM & PERSONAL CARE

- Install grab bars and comfort-height toilets
- Improve bathroom lighting and visual contrast
- Install easy-turn faucet handles

DOORS, FLOORS & STAIRS

- Improve flooring transitions and add handrails
- Add contrast edging for better stair visibility
- Install swing-clear hinges to widen doorways

LIGHTING & VISIBILITY

- Add motion-sensor and task lighting
- Upgrade to rocker-style light switches
- Improve contrast between floors, walls, & counters

KITCHEN, CLOSETS & STORAGE

- Install pull-out shelves and built-in closet shelving
- Adjust hardware for easier grip and lower closet rods
- Reconfigure storage to reduce bending & reaching

BEDROOM & FURNITURE

- Add bed-assist rails
- Modify furniture for better accessibility
- Reconfigure furniture for easier movement

Why?

Why Functional Enhancements Matter

- *Help the home adapt to changing health or mobility needs*
- *Extend the ability to live comfortably at home longer*
- *Often cost significantly less than moving or transitioning to assisted living*
